Meet the

EO Hub

Smart-charging Hub, connects up to 32 EO Genius

Future-proof smart charging for the forward-thinking fleet manager and commercial EV driver. The EO Hub unlocks smart-charging capabilities, including access to our smartphone app and EO Cloud platform.

- Modular approach to smart charging
- Future-proof & scalable
- Active Load Management (see below)
- Charge scheduling for electric fleet vehicles
- Smart grid integration
- Energy usage reporting
- Set pricing and generate revenue

Award-winning solution

EO Hub can connect up to 32 EO Genius chargers. It offers fleet managers smart-charging functionality and access to the EO Cloud charging portal, offering a holistic view of your charging infrastructure.
