Meet the

EO Cloud

Our Smart Operating Platform

Login to the EO Cloud to unlock smart charging functionality and remote access to our bespoke fleet, workplaces, and apartment management platform. The EO Cloud provides fleet managers with a holistic view of their charging infrastructure and enables full control with a single click.

- Full control of charging infrastructure (including access restriction)
- Monitor electricity consumption across all chargers
- Set load management requirements
- Set pricing and generate revenue
- Link home & work charging to record benefit-in-kind tax

Monitor electricity consumption
